2026 Topps Update Series Baseball

SSP & Rare Insert Research Guide

8 rare-insert families | 175 subject spots | 30 MLB teams represented

Savvy groups non-autograph insert families whose best published pull rate is at least 1 in 500 packs across offered formats. This is a curated research label, not an official Topps SSP designation or a guaranteed case hit.

Ranked by unique subject count, then name. A smaller subject pool is not a statement of better pack odds. Each athlete is counted once per family and team; parallels collapse. Rookie flags follow normalized player identity. Printed historical teams remain listed where they differ from the browse franchise.

Sources: supplied product-specific Topps checklist and odds PDFs. Source details and methodology.
